Texart *XT-640S-DTG*

Multi-Station Direct-to-Garment Printer

TURN UP THE VOLUME ON DTG

Texart XT-640S turns up the volume on t-shirts, apparel, and fabric accessory printing without the high industrial price tag. Get productivity, versatility, and flexibility with a direct-to-garment printer that allows you to print t-shirts on-demand, as well as large, unique items to expand your products and profitability.

Whether on-demand or high-volume, print beyond t-shirts with a large bed and expanded print height for pillowcases, towels, and so much more.

Produce graphic t-shirts, polo shirts, jeans, jackets on-demand or in high-volume with a continuous printing operation.

Add specialty items to your product portfolios with popular gift items like bandanas, socks, can koozies, and so much more.

Easy, Efficient, and Expansive Printing onto Fabric

The multi-station setup of the Textart XT-640S allows you to quickly load and unload fabric items or rows of items—keeping your production moving and profiting. It's like having multiple DTG printers running at the same time. For businesses who want to add highly profitable short-run orders with no minimums to their operation, need to ramp-up production during busy times, or want to add more custom products to their output, it's the perfect solution.

Highlights

- Create a range of products with a user-customizable platen system—includes 8 medium/large platens for t-shirt and apparel printing.
- 8-inch height clearance and expansive 54-inch × 63-inch flatbed printing space flatbed printing space—add larger, bulkier items to your print output.
- Get print results associated more with industrial devices—print at around 50-60 dark shirts-an-hour, or 90-100 white t-shirts depending on your color speed mode* and get outstanding color results and performance in commercial wash tests.
- Allows you to instantly scale-up production and add new products and short-run print flexibility to your print customization business.
- Environmentally friendly INKU ink in CMYK, high-density White ink—produce brilliant, color-targeted results on white or color garments.
- Includes CADlink Digital Factory Apparel RIP Software with customer order barcode generation, product positioning templates, and pre-defined print environments that enable you to adapt easily to your web-to-print operation.

*Speed varies on image size, garment type and quality preferences.
